

# **Baxter**

## **MEET THE EXPERTS**

### **Monday 30th November**

***Water for Dialysis*** – Matthew Lyons, Water Business Development Manager

Matthew will be available to discuss aspects associated with providing water for dialysis, topics can include but not limited to:

- Central water treatment plants
- Portable RO machines
- Pre treatment
- Providing dialysis quality water
- Water standards
- Disinfection
- Water testing

### **Tuesday 1st December**

***HDx, Expanded HD*** – Dante Tait, Clinical Application Specialist and Kidney Collaborative Ambassador

If you would like to see the latest evidence on this latest therapy in HD, please feel free to connect with Dante. There have now been over 4 million HDx treatments across 44 countries, with many patients reporting improved outcomes.
